PLENTYBORD

The base of the Plentybord rail system is the discrete rail with its unique suspension function for flipchart papers, posters, etc. All Plentybord accessories suspended on the rail can easily slide in a lateral direction and can easily be moved from one room to another. The rail and other profiles have a white or silver anodized finish with well designed plastic endstoppers for rails and penshelves.

SINGLE RAIL COMPLETE

Complete set including decor strips and end stoppers. Length: 2500 mm.

Description	Art no
Single rail complete, natur	120 040 60*
Single rail complete, white	120 040 90*

	120 760 90*	1218x1118	16.0 Kg
	120 770 90*	1518x1118	21.5 Kg
	120 780 90*	1818x1118	24.5 Kg

Every whiteboard in the Abstracta range has an E3 surface; an environment-friendly, glass enamelled, sheet of steel. The writing surface is magnetic. E3 is recommended for short throw projectors only.

A special "White board kit" is available as an accessory. This has been developed to fit the E3 surface and includes: eraser, markers, penholder, bottle of cleaning fluid and magnets.

SilverPro™

SilverPro™ is unique to Abstracta – a frosted glass writing board with a projection and magnetic surface. There is no need to add a projection screen, just project directly onto the glass board. SilverPro™ is recommended for front projection. A special "Magnetic glass board kit Pro" is available as an accessory. This has been developed to fit the SilverPro™ surface and includes: eraser + felts, markers and magnets.

Optical White Glass

Tempered optical white flat glass with lacquered, tempered reverse side. The surface of optical white glass, e.g. Vision, is not magnetic itself.

To achieve the magnetic function, a discrete magnet rail can be mounted on the reverse side; the product is then designated MagVision. Optical white glass is not suitable for projection.

A special "Glass board kit" is available as an accessory. This has been developed to fit the Optical white glass surface and includes: eraser and markers.
